Objective

With over 5 years of experience as a Mobile Engineer, I specialize in iOS and Flutter development, focused on creating efficient, user-friendly apps. I am eager to apply my skills in building high-quality solutions.

Experience

- **Mobile Engineer at SGT, Cairo from (July 2021) till now.**
- **DGA “Digital Government Authority ” - Native iOS App:**
 - It is an informative application requested by the Kingdom of Saudi Arabia Digital Government Authority to help their employees achieve a set of tasks through our app.
 - The app utilizes a declarative UI approach using **SwiftUI**, with State management handled through the **Model-View-ViewModel (MVVM) pattern**. This approach ensures seamless flow data streams that listen to events and update the app's state accordingly.
 - Collaborated with QA testers for comprehensive unit testing and post-production testing.
- **My MT App:- Native iOS App:**
 - An iOS app for the Ministry of Tourism of the Kingdom of Saudi Arabia that provides a wide range of features to employees. This app allows employees to complete various tasks directly from their phones with just a few clicks.

- Implemented new features using **SwiftUI**, **MVVM** architecture, and Clean Code principles.
- The MT app is built using Clean Architecture, with distinct layers for Data, Presentation, and Domain. It is developed with the **UIKit framework** and integrates **HealthKit** for health data, as well as Digital Card with **Apple Wallet**.
- **SCISP - Native iOS App:**
 - It is an informative application requested by the Saudi government to share information
 - Implemented new features using **SwiftUI**, **MVVM architecture**, and Clean Code principles.
 - The app utilizes a declarative UI approach using SwiftUI, with State management handled through the Model-View-ViewModel (**MVVM**) pattern. This approach ensures seamless flow data streams that listen to events and update the app's state accordingly.
- **ZATCA App:- Native iOS App**
 - An iOS App for the zakat tax and customs authority of Saudi Arabia for their next Zakat Conference. This app helps conference users to join lectures, read articles, read the latest news, and contact conference speakers.
- **TGA Taxi “an Uber-like app” - Flutter App:**
 - It is an Uber-like app that allows the user to request a ride from one place to another. it also has some new features such as chat feature to allow the user to communicate with the driver using any of the languages supported by the app.
- **TGA Driver “an Uber-like app” - Flutter App:**
 - It is an Uber Drive-like app that allows the driver to manage the trip that was requested by the user.

- **Software Engineer at Bazzary from (Apr 2025) to (Apr 2026).**
- **Bazzary (Super App – E-commerce & Delivery Platform) :**
 - Bazzary is a fast-growing super app in Yemen that combines e-commerce, delivery, and digital payments into one platform. Building a unified digital ecosystem that connects users, sellers, and logistics providers.
 - UIKit to SwiftUI Migration - Leading the migration of existing iOS codebase from UIKit to SwiftUI for improved performance and maintainability.
 - Bazzary Shop - Local shopping platform connecting users with nearby stores.
 - Bazzary Mart - Daily essentials delivery with quick turnaround.
 - Bazzary Global - International products marketplace.
 - Buy Now, Pay Later (BNPL) - Flexible payment solutions.
- **iOS Reviewer & Instructor at Sprints, Maadi, Part time, from (Dec 2022) to (Dec 2023)**

I served as an iOS Reviewer and Instructor for a specific module, where I assisted students in learning how to deploy iOS applications using Xcode and App Store Connect

- **Achievements:**
 - iOS Instructor for a specific module (App Production)
 - Review iOS Bootcamp all Modules
- **Mid iOS Developer at Awammer Elshabaka , Full time, from (Dec 2020) to (Jul 2021)**

I was part of the software house team. I worked on various projects involving software development, testing and maintenance

- **Achievements:**
 - Created multiple software house applications, including:
Cafe Station, Bubbles Laundry, إستئجار , مزاد KSA

- **Internship & Junior iOS Developer at ELMnassa , Full time, from (Aug 2019) to (Nov 2020)**

I was part of the software house team. I worked on various projects involving software development, testing and maintenance

- **Achievements:**

- Created multiple software house applications, including:
Hire App , Turkish bazar App

Education

Graduation from Mansoura University with a degree of computer & information science , from 2016 to 2020.

- **Major :** Computer science.
- **Cumulative grade :** Very good.
- **Graduation project grade :** Excellent.

Skills

- **Technical:**

- Experience in Swift, UIKit, SwiftUI.
- Experience in Dart, Flutter, Bloc.
- Experience in Alamofire.
- Experience with offline data management using SwiftData and Realm.
- Experience working with CocoaPods and Swift Package Manager (SPM).
- Knowledge of clean architecture and various architecture patterns. (MVVM - MVP - TCA).
- Knowledge of CI/CD (Fastlane)
- Knowledge of Google maps and mapkit
- Good Knowledge of HealthKit.
- Good Knowledge of Git version control (GitHub), (GitLab)
- Knowledge of Firebase, FCM , push notifications.
- some Knowledge of Agora Real-Time Voice and Video

- **Soft :**

- Teamwork
- Collaborating
- Communication skills
- Consistency

- Presentation
- Supervision
- Respectful

- **Languages :**

- Arabic (Native).
- English (working proficiency).
